Template Tips:

All artwork must be in vector form
APG accepts Adobe Illustrator, EPS or PDF formats only. Corel (CDR) or JPG files cannot be accepted.

Do not increase or decrease scale of template.
The etching area/template has been pre-measured for production. If you have more than one artwork for the same piece, please feel free to continue off of the artboard.

Artwork must be all black
Please ensure that all text, logo, vector shapes, fills, and strokes that will be etched are all 100% pure black (Hexadecimal Color Code #000000). No color, grayscale, gradients, fine halftone, shadows or fuzziness.

Artwork must be outlined
Before submitting, please ensure that all artwork is outlined (Select All >Type> Create Outlines). This will help avoid any complications when opening files.
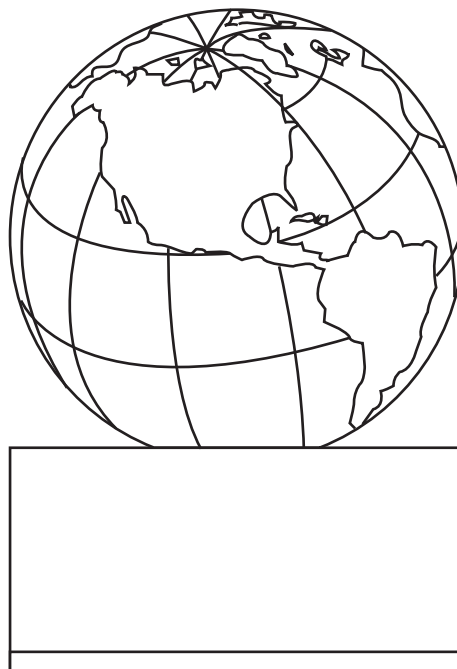

All lines must have a thickness of at least 1pt. Lines smaller than 1pt may not etch consistently.

Small shapes, or openings in shapes or letters must be at least 4px wide.
